## NEWBUNTU Group announces acquisition of JENOPTEC, now JENOPTEC NT

In a strategic move aimed at strengthening its position in the information technology market, the NEWBUNTU Group is proud to announce the official acquisition of JENOPTEC, which will henceforth be known as JENOPTEC NT. This new name marks the beginning of a new era for the company, reflecting its integration into the NEWBUNTU Group while preserving its identity and expertise in the field of optics and communications.

This acquisition enables NEWBUNTU to diversify its activities and benefit from JENOPTEC NT's expertise in innovative optical solutions. JENOPTEC NT's know-how in this specific sector perfectly complements NEWBUNTU's existing offering, providing our customers with a wider range of services and products.

“We are delighted to welcome JENOPTEC NT to the NEWBUNTU Group. This integration is a key step in our development and diversification strategy. It confirms our commitment to investing and innovating in cutting-edge technologies, while enriching our portfolio of skills», said Mario Désérable, CEO of the NEWBUNTU Group.

The management of JENOPTEC NT will remain in place to ensure a smooth transition and maintain continuity in relationships with customers and partners. Together, we will work to maximize the synergies between our two companies to accelerate our growth and expand our presence in international markets.

Specialized in optoelectronics for almost 40 years, JENOPTEC NT (formerly JENOPTEC) designs, assembles and manufactures customized fiber optic cables. One of the few companies in Europe to master this field, it operates in the telecommunications, defense, industrial, medical and audiovisual sectors. Our unique production site and characterization laboratory in France enable us to control the entire manufacturing process, from design to production.

NEWBUNTU is a family-owned group, entirely financed by French capital, which was founded 21 years ago. Its current CEO, who is also the founder, still runs the company along with several company executives.

Federating several IT companies, he is committed to providing innovative solutions on a global scale, transforming technological challenges into growth opportunities. Our operations include manufacturing, distribution, as well as the design of eco-innovations and the development of customized digital solutions. We value innovation, collective intelligence and cohesion as key elements in building a sustainable and meaningful future.
